Veteran teacher and author Linda Rief has inspired thousands of practitioners across the nation to lead adolescent students on a journey to becoming lifelong readers and writers. In *ReadWriteTeach*, Linda offers the what, how, and why of a year's worth of reading and writing for middle and high school students with a framework that is as flexible as it is comprehensive. "...This book isn't a compilation of tear-out reproducibles designed to help us replicate Linda's practices," writes Maja Wilson in the foreword. "Instead, it's the most powerful gift that a master teacher can give us: the story of her thinking and feeling as she teaches." Linda's insights and beliefs are woven throughout a comprehensive overview of best literacy practices, which include: essentials in the reading-writing workshop grounding our choices in our beliefs getting to know ourselves and our students as readers and writers. Students' voices, through examples of their writing, drawing, and thinking, resonate throughout the book and characterize the thoughtful readers, writers, and citizens of the world that they become under Linda's guidance. Online companion resources include all of the handouts that Linda uses in her own classroom. Download a free sample chapter!

What does rigor, a word that frequently pops up in conversations about education, really mean? More specifically, what does it mean for literacy instruction, and how does it relate to challenging standards-based assessments? In this informative and practical guide, literacy expert Nancy Boyles uses the framework from Webb's Depth of Knowledge (DOK) to answer these questions, offering experience-based advice along with specific examples of K-8 assessment items. Boyles defines rigor and shows how it relates to literacy at each DOK level and explains the kind of thinking students will be expected to demonstrate. She then tackles the essence of what teachers need to know about how DOK and its associated rigors are measured on standards-based assessments. Specifically, readers learn how each DOK rigor aligns with standards, text complexity, close reading, student interaction, the reading-writing connection, and formative assessment. Teachers, coaches, and administrators will find clear guidance, easy-to-implement strategies, dozens of useful teaching tools and resources, and encouragement to help students achieve and demonstrate true rigor in reading and writing.

As if the streets weren't scary enough, the looming war between the two men in her life explodes, taking even more casualties and putting Chess squarely in the middle. Downside could become a literal ghost town if Chess doesn't find a way to stop both the war and the dark wave of death-magic, and the only way to do that is to use both her addiction and her power to enter the spell and chase the magic all the way back to its malevolent source. Too bad that doing so will probably kill Chess—if the war doesn't first destroy the man who's become her reason for living.

Supporting dreams of fabulous escape and transformation, fantasy literature can be especially compelling for adolescents. Mary Ehrenworth offers a unit of study that harnesses the power of this expansive and poignant genre to lure even reluctant readers into reading epic novels with passion and stamina. Adhering to reading workshop principles and the classic session architecture honed by Lucy Calkins in the Units of Study series, this unit of study begins by launching the kids into fantasy book clubs that foster literary conversations. After exploring ways to read with deep comprehension and to synthesize across pages, students learn to develop thematic understandings. During the course of this unit, students likewise explore where their novels fit within the larger literary tradition. Throughout the unit, students read several books-tackling at least one series, and sometimes moving across series. (This unit of study is drawn from Constructing Curriculum in the Units of Study for Teaching Reading series.) A Quick Guide to Teaching Reading Through Fantasy Novels is part of the Workshop Help Desk series.
