(Oliver James, Contact Magazine) A novel and comprehensive approach to transferring from the C to F instrument. 430 music examples include folk and national songs (some in two parts), country dance tunes and excerpts from

the standard treble repertoire of Bach, Barsanti, Corelli, Handel, Telemann, etc. An outstanding feature of the book has proved to be Brian Bonsor's brilliantly simple but highly effective practice circles and recognition squares designed to give, in only a few minutes, concentrated practice on the more usual leaps to and from each new note and instant recognition of random notes. Quickly emulating the outstanding success of the descant tutors, these books are very popular even with those who normally use tutors other than the Enjoy the Recorder series.

In this fascinating new book, Malcolm Vale sets out to recapture the splendour of the court culture of western Europe in the thirteenth and fourteenth centuries. Exploring the century or so between the death of St Louis and the rise of Burgundian power in the Low Countries, he illuminates a period in the history of princes and court life previously overshadowed by that of the courts of the dukes of Burgundy. Taking in subjects as diverse as art patronage and gambling, hunting and devotional religion, Malcolm Vale rediscovers a richness and abundance of artistic, literary, and musical life. He shows how, despite the pressures of political fragmentation, unrest, and a nascent awareness of national identity, a common culture emerged in English, French, and Dutch court societies at this time. The result is a ground-breaking re-evaluation of the nature and role of the court in European history and a celebration of a forgotten age.
